to **The Void**. This level seems ordinary at first,
nonetheless, within 5 minutes of prevailing there, the
circumstances will start.

5 minutes

After 5 minutes of staying in the level, the cheater will see
that aspects of the game will begin altering. Portions of the
ceiling will decline, entities will commence spawning, and
the cheater's sanity will diminish.

10 minutes

10 minutes of staying in the level causes the geometry to
begin collapsing. Ceiling tiles will begin to fall onto the
cheater and walls will begin to crumble, allowing more
entities to attack you.

20 minutes

20 minutes of staying at the level causes most electronics
to either combust or explode. The fires will quickly engulf
the whole level. but the cheater can still survive.

A room within the level. Don't

level. Cheaters will have 60 seconds to get out of this main room before it explodes. After the main room explodes, the rest of the level turns into a maze with arcade cabinets littered throughout that all read one message: ***Nobody likes cheaters.*** Entities will begin swarming the level, hunting you down. The fire will continue to engulf the level.

60 minutes

If a cheater manages to survive for a whole hour in this level, they will be given a quarter, and their final task is to put a quarter into an arcade cabinet. Entities will begin to multiply, and all entities in the level will know where the cheater is at all times.

120 minutes

If a cheater fails to use their retry in an hour, the rest of the level explodes.

Entities

Smilers

One of the most common on the level. They're mostly found in dark spaces.

Skin Stealers

Found in a lot of places. Also very common on the level.
